

ARCTIC FINLAND HOUSE

in all weathers since 1996

Arctic Finland House – our company's roots lie in Lapland

Since the 1990s, Arctic Finland House has focused primarily on the design, manufacture, and construction of traditional grill huts.

Over the years, our product range has expanded – we now also offer garden houses, pavilions, barrel saunas and camping cabins.

All of our products are inspired by the Nordic lifestyle and are crafted with both practicality and aesthetics in mind.

Our huts are designed to provide shelter, warmth, and peace – whether in your garden, at a cottage, in the forest, or in the mountains.

The “Kota”-style house has roots that stretch back thousands of years

The design of the kota began when northern peoples needed ways to survive in arctic conditions.

The earliest huts were simple yet ingenious – their sloped sides dispersed smoke and retained warmth.

The fire in the center of the room was the heart of life – it gave heat, allowed cooking, and brought families together.

The kota symbolizes Lapland’s culture and its deep ties to nature and community.

Our mission is to bring the serene and spiritual atmosphere of Lapland into people’s daily lives

In today’s fast-paced and stressful world, we need places where time stands still – places to relax, enjoy nature, and be close to loved ones.

That’s exactly what Arctic Finland House products offer. We were one of the first companies to start producing high-quality grill huts, and over the years our products have become symbols of quality.

We value traditional craftsmanship and blend it with modern possibilities. In our factory, we use time-tested techniques while also applying the latest technology to ensure precision, durability, and customer satisfaction.

Every hut we make reflects the spirit of Lapland – simplicity, warmth, and a deep connection to nature.

Grillhuts

Bring the magic of Lapland into your garden – choose a Grill Hut!

Have you dreamed of a place where time stops, a fire crackles, and good people gather to share flavors, stories, and laughter?

A grill hut is more than just a place to cook – it's a cozy haven that brings Nordic warmth and calm directly to your backyard.

A Nordic experience for every season

A grill hut allows you to enjoy evenings with a unique atmosphere in every season – whether it's snowing outside or the air is fresh with summer dew.

The live fire in the center creates a relaxing ambiance and invites you to enjoy the moment. It's a perfect space for quiet retreats or memorable gatherings with family and friends.

Truly comfortable and practical

Each grill hut comes equipped with a stylish and functional grill where you can cook anything – from simple sausages to gourmet meals.

Built for northern climates, the huts are durable in any weather – sturdy wooden walls and high-quality double-glazed windows keep the cold out, and in warmer weather, all the windows can be opened to let in fresh air and birdsong.

A place to spend the night

Grill huts aren't just for cooking – they're versatile spaces where you can also spend the night.

Starting from models of 9 m², there are clever fold-out bench extensions that convert into comfortable sleeping places.

This means you can offer guests a special overnight experience or organize a little family adventure in the heart of nature – without leaving your backyard.

Every hut is unique

We manufacture huts in eight different sizes, ranging from 4.9 to 25 m².

The huts are delivered in natural wood tones, but we can paint them to match your garden.

To enjoy the starry winter sky, you can also request roof windows.

Huts can be ordered in three different packages:

1. An empty hut with benches along the walls.
2. A hut with grill and smoke ventilation system.
3. The above, plus accessories ranging from cooking tools to reindeer hides.

Let's create memories together

Light the fire, set the table, gather your family and friends, and enjoy moments that will be remembered for years to come. Whether it's a Christmas Eve with the warmth of a smoke sauna, a midsummer celebration around a live fire, or simply a quiet moment for yourself – the grill hut creates the perfect setting for it all.

Grill Hut – your personal Lapland experience, bringing nature closer, connecting people, and giving each day a special meaning.

Garden houses, summer kitchens, pavilions

Your moments of rest

Not just a garden house – it's the heart of summer, a winter retreat, your own special place.

It's a space where you can listen to rain on the roof, watch the sunset through double-glazed windows, or enjoy breakfasts in early spring when nature is just awakening.

Your garden doesn't need a big change – just one thing to bring it all together.

Built to last through the seasons

Double-glazed windows and thick wooden walls keep wind and cold at bay, so you can enjoy your garden house from late autumn to early spring.

In summer, open the windows to let in fresh air and the sounds of nature.

Gently crackling coals ...

Our garden houses and pavilions are available in various sizes – from 6.5 to 18 m² – and can be ordered with a built-in grill.

The grill allows you to cook directly over fire – authentic, homely, and always impressive.

It's not just cooking – it's an experience.

After all, life is meant to be enjoyed ...

Arctic Line – closer to nature

Bring nature close and enjoy summer in any weather!

The Arctic Line summer kitchen is a modern, elegant, and comfortable place to spend quality time with family and friends.

Large openable glass doors and windows let in plenty of natural light, protect from wind and rain, and make you feel like you're in the middle of nature – even in your own backyard.

The modern design fits perfectly into any yard and offers the chance to create a real summer oasis. Inside, there's room for a dining table or even a bed – depending on how you want to enjoy your summer. Outside, a spacious covered terrace invites you to grill and dine in comfort.

The summer kitchen is available with or without a terrace.

Moments for yourself

The pavilion is the perfect place to enjoy peaceful moments and afternoon coffee.

Large windows create a bright and airy environment that's comfortable at any time of day.

You can furnish the interior however you like – there's room for a sofa set or dining table.

Adding curtains brings an extra touch of softness and makes the space feel even more inviting.

Barrel saunas

A genuine sauna experience – fast and easy

Dreaming of your own sauna but don't want complex construction? There's no easier way to get a sauna in your yard.

Just choose a spot and the sauna will be delivered ready to use. Thanks to their rounded shape, barrel saunas heat up quickly and distribute steam evenly, creating an authentic, oxygen-rich, and relaxing atmosphere.

Can a sauna experience get any better?

Yes – many models feature a full or half-circle panorama window in the back wall, allowing you to enjoy nature between steam sessions. Our saunas are made of durable thermowood that withstands both heat and moisture and stands the test of time.

You can also order sauna benches made of abachi – an African wood that quickly adjusts to body temperature and has a beautiful, smooth texture.

Depending on the model, our saunas accommodate 4–6 people – offering the perfect space for family or friends to enjoy sauna bliss.

Details create the atmosphere

LED lights under benches or on the walls, bottle holders in the steam room – just ask.

Ladle, bucket, thermometer, hourglass – for perfect steam and timeless moments. A sauna hat, soft towels, and a stylish firewood basket – every detail sets the mood.

These elegant, durable accessories complement your new barrel sauna. Add the finishing touch – it's the little things that make the sauna truly special.

Wherever your thoughts may lead you ...

... we're here to help

While we offer a selection of standard products, each order is thoughtfully crafted to perfectly reflect the customer's personal preferences, unique style, and individuality.

Over the past nearly 30 years, we've had the privilege of creating dozens – if not hundreds – of truly one-of-a-kind projects, bringing to life the biggest dreams and desires of many people.

Dreams have no limits

Not sure if your ideas can come to life?

Our product designers can help.

Whether it's a tiny witch's hut tucked away in a forest corner, a modern retreat with a stunning panoramic ceiling for admiring the northern lights, a portable "tube office" for work on the go, or a playhouse designed to resemble your child's favorite cartoon – we're fully prepared to bring your unique ideas to life.

Quality above all

And even if dreams often seem fleeting – we don't accept that.

Arctic's design team has managed to bring even the most complex ideas to life, always staying true to our core goal: to be usable in any weather, anywhere.

Strong, weatherproof, unique – and maintaining high quality for decades.

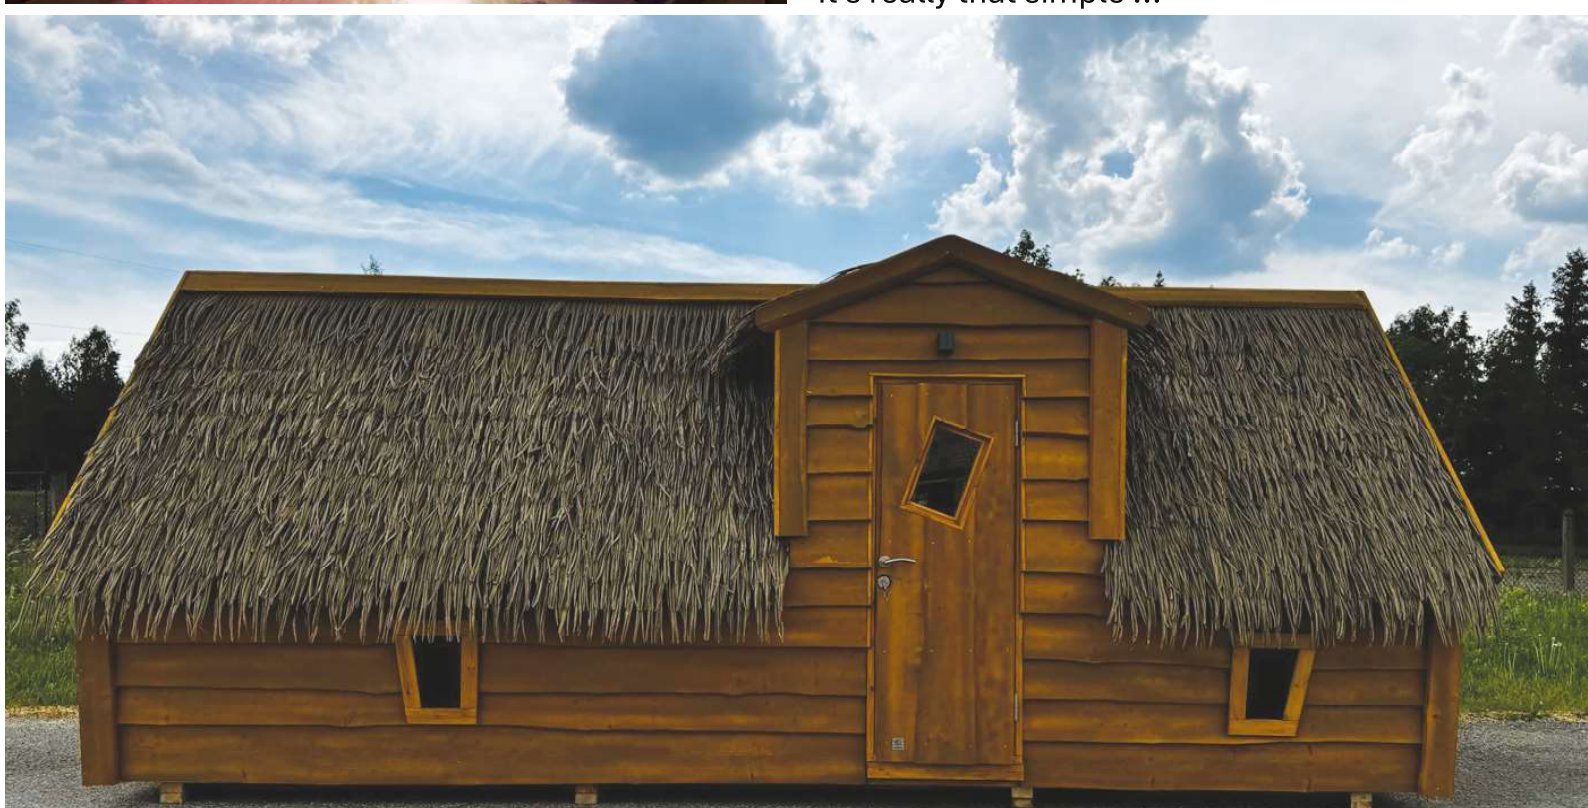

Peace of mind for years to come

What is the foundation of our quality?

Thoughtful craftsmanship, carefully chosen materials, reliable partners – but most importantly, our invaluable master builders.

It's their skilled hands that bring our products to life, and their trained eyes and experience that ensure strict quality control before shipping.

It's really that simple ...
